

### CASE STUDY A214-0: WORM – BRUSSELS TRAM NETWORK

Customer	MIVB/STIB
Location	Av. General Jacques, Brussels, Belgium
Duration	2012-...
Application domain	Tram

Close to the station of Etterbeek near Brussels, MIVB/STIB installed a WORM system for vehicle wheel flat and out of roundness detection. The location of the system was optimized and chosen to be in the near vicinity of a tram depot in order to measure the highest number of trams possible.
